

Expert Advice Service for *in silico* toxicology

Want to ensure your *in silico* assessments have the best chance of being accepted by the regulators?

The Expert Advice Service is an annual subscription to provide coaching and advice from experts on *in silico* toxicology as a follow-up to our “NAMs—application of QSAR and read-across course”.

A Compendium of Case Studies
the REACH Guidance on Chemicals
and Read Across

Read-Across Assessment Framework (RAAF)

GUIDANCE ON GROUPING OF CHEMICALS, SECOND EDITION
Series on Testing & Assessment
No. 194

- ◆ Peer review of your read-across
- ◆ Help desk to answer general questions on *in silico* methods for chemical hazard, risk and safety assessments
- ◆ Application help with the OECD QSAR Toolbox
- ◆ Updates on the latest developments of *in silico* methods for chemical hazard, risk and safety assessment
- ◆ 1 year's access for one person to “NAMs—Use and application of QSAR and read-across” eLearning resource

Why Subscribe?

- ◆ Choice of methodology and analogues for *in silico* assessments can be subjective. A peer review is a safety check
- ◆ Having a resource to answer questions quickly can save you time
- ◆ This subscription is a cost effective solution to always have access to up-to-date expertise and knowledge for your safety, hazard and risk assessments

This service is only open to people who have completed one of ToxNavigation's eLearning courses

Cost for 2026

The annual subscription is **£4,050 per year** for a maximum of 30 hours of help desk advice to be taken in a 12 month period
